RESEARCH EXPERIENCE

- ❖ **Mapping Assistances to Strengthen Microbusinesses**
(SMERU and Ministry of Women's Empowerment, Juni-December 2003): conducted field work to
 - (a) mapping assistance to strengthen micro businesses carried out by various stakeholders (government institution, NGO's, donors, Bank, etc)
 - (b) verify the assistance program in the field in terms of implementation process and the intended beneficiaries.

- ❖ **Socioeconomic Impact Evaluation of Sulawesi Agricultural Area Development Project (SAADP)**
(SMERU and World Bank, February–May 2004): to assess the impact and the implementation process of the project by combining quantitative household survey and in depth interview with key informants.
- ❖ **Field Verification of The Indonesian Small Area Poverty Maps**
(SMERU and Ford Foundation, July–December 2004): to compare and verify the poverty estimates calculated from poverty mapping method with the poverty condition in *kabupaten, kecamatan and village level* by using participatory methods (conduct FGD with relevant stakeholders and community)
- ❖ **Study on Capacity of Local Government through Assisting Participatory Poverty Assessment (PPA) in Indonesia**
(SMERU and Japan Bank for International Cooperation (JBIC), April 2005 – January 2006):
to assist local government in conducting Participatory Poverty Assessment as an input to the formulation of regional development plan, including regional PRSP.
- ❖ **Monitoring and Evaluation of Cash Transfer Program (BLT); Pilot Project: Jakarta**
(SMERU, November 2005): to assess the implementation of Cash Transfer Program in terms of socialisation, house hold data collection, targetting, and implementation mechanisms.
- ❖ **Moving Out of Poverty in Conflict Area: West Timor Case**
(SMERU and World Bank, February – August 2006): to study how and why some groups of people in community can escape poverty while other groups remain trapped or even fall into poverty and how do economic, political and socio-cultural context affect people's movement out of poverty. This study combines qualitative and quantitative methods by using FGD, Household Questionner and Individual Life Stories.
- ❖ **Evaluating Food For Work Program** conducted by ADRA (Adventist Development Relief Agency) in 1998. Conducted field research using qualitative method: in depth interview with key informants and using Focus Group Discussion to assess the impact of the programs to the beneficiaries.
- ❖ **Evaluation of Jakarta Urban Development Programs** (Lab Sosio UI in 1999); assessing the impact of economic (saving and loan, microcredit) and infrastructure development in urban area, using household survey and Focus Group Discussion.
