- ❖ Community Health, Informal sectors and Poverty Studies

EMPLOYMENT HISTORY

- ❖ October , 1998 – 2006 (at present) Researcher, Division of Social Monitoring and Qualitative Analysis, The SMERU Research Institute, Jakarta, Indonesia
Conducting social economic assessments. I have been involved in all stages of the research projects, from the initial conceptualization, design of research methodology, organisation of research access in the field, implementation of the research, analysis and the formulation of the final reports. SMERU's research reports are used by both local and international organisations throughout Indonesia in order to create and evaluate public and private institution'' policies and to refine implementation of programs.

- ❖ March, 1997 – April 1998, ADB Consultant as Community Specialist on Project in Water Resource Department of Public Work

This task to assist the Government to define a medium term strategy of Seventh Five-Year Development Plan (Repelita VII).

My participation on evaluate farmer and community organisation involve in water use and related village activities on irrigation development and the associated achievements and constrains in public sector support services. To Assist with the surveys of irrigation performance in several provinces, regarding: formal and informal water user association and other community organisation involved in water management. To Assist with identifying regional policy and strategy options for promoting a greater role for communities and local governments in irrigation and agricultural development, and assess the qualitative achievements of the small scale irrigation institution.

- ❖ 1989 – December 1996 Researcher at Center for Policy and Implementation Studies (CPIS)

To research development policies, programs and implementation of Policy Advising in Urban Informal Sector and Agriculture Sector. My participation involved designing research proposals, conducting research works and field works.

1. Urban Informal Sector. This project which had start on the studies of the networks of three occupational groups, i.e. the Scavenger, Street vendors and Becak drivers in Jakarta had resulted in the concept of the "Enterprises of Recycling and Compost Production" (ERCP) project as alternative for Urban Waste Management. My participation involved designing research proposals, conducting research works and field works, making agreement with government agencies, small holders owners and labor also community. This project has been coordinated by Dr.Margueritte S.Robinson, a consultant from Harvard Institute for International Development (HIID).
2. Agriculture. I had participated in research, monitoring of policy implementations and writing policy recommendations of the following agricultural project: a) evaluation of the agricultural extension project in Indonesia; b) integrated pest management program on rice fields; c) survey on rice consumption rate of the Indonesia households; d) monitoring and analysis of the allocation of livestock in Indonesia etc.

This project has been coordinated by Dr.Jaime Quizon, a consultant from Harvard Institute for International Development (HIID) and World Bank

- ❖ 1985 – 1988 Researcher at Yayasan Srikandi (NGO, focused on women studies)

As junior researcher doing field works and report.

Book: Strategi Kehidupan Wanita Kepala Rumah tangga, Mayling Oey and Sudarti Surbakti, 1991, BPS
